

WPE Week 15 Lab Activity

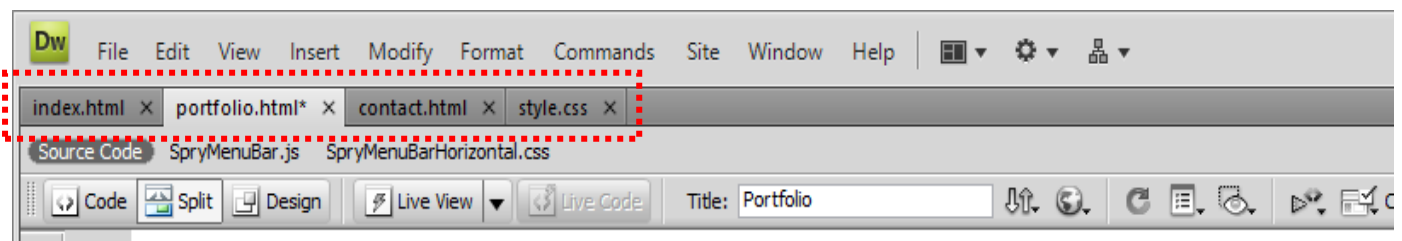

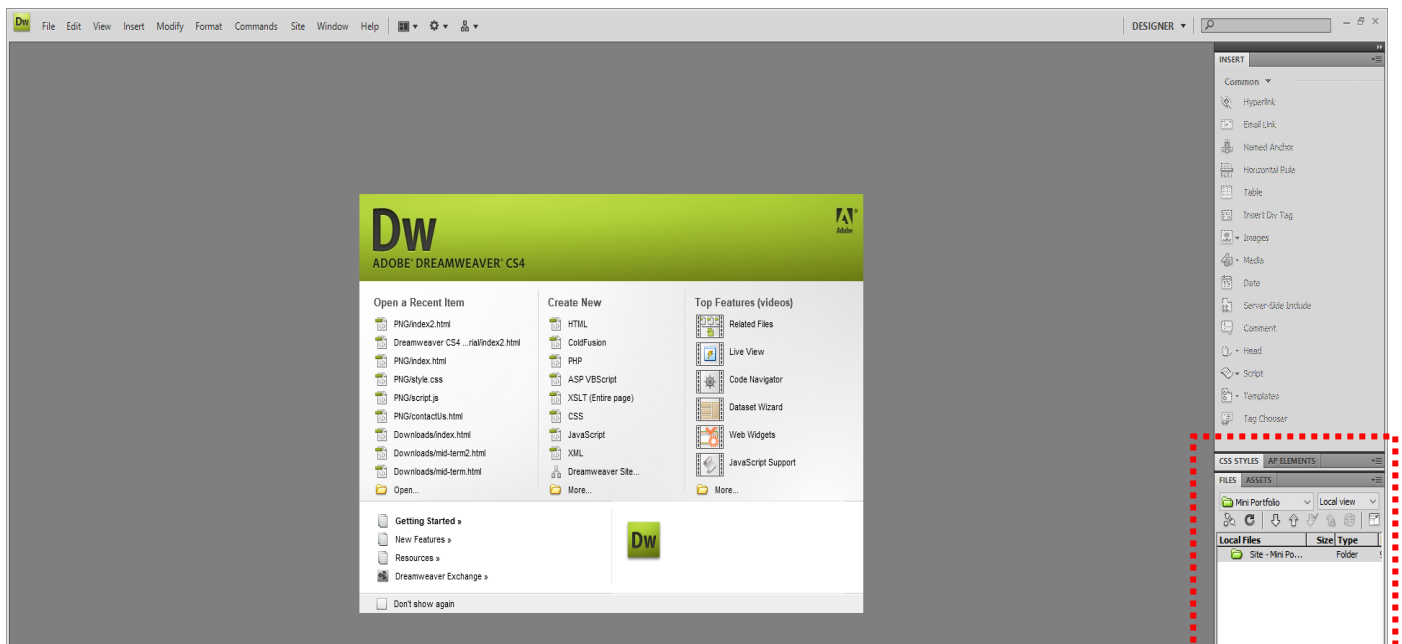

Use Adobe Dreamweaver CS4 to complete week 13 – 14 **3-page personal portfolio website** to include metatags and prepare your mini portfolio site for publishing.

Your final website should include:

- A working **navigation menu using Spry Menu Bar**.
- A **portfolio table** displaying your education history.
- A **contact form** with Spry validation.
- All three webpage have metatags in head of the html document

Step 1: Inside the Mini Portfolio folder, open three new HTML files:

- a. **index.html**
- b. **portfolio.html**
- c. **contact.html**

Step 2: Open **index.html** in Dreamweaver.

- a. Add the metatags in the head of your HTML: (Check code lines 3 – 15) in the screenshot on page two for assistance.
- b. Save your file.
- c. Preview your page in a browser using F12 to test your website.

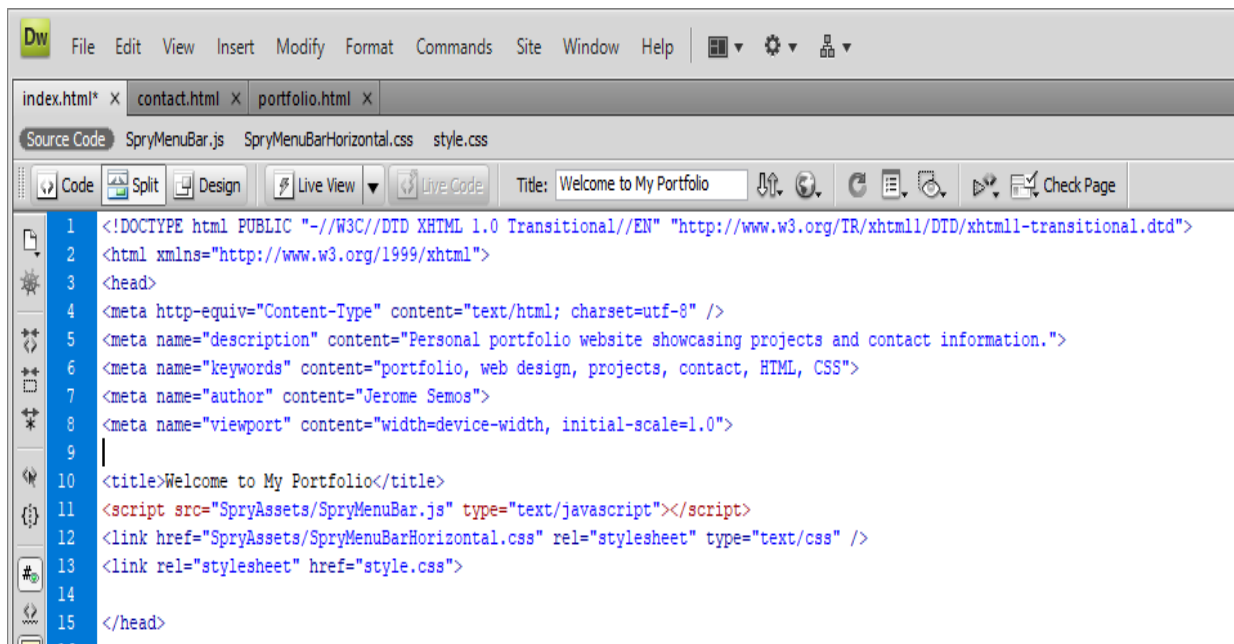

Figure 1: Index.html page

Step 3: Update the **Portfolio.html** and **Contact.html** page to include the metatags

- Open **portfolio.html** in Adobe Dreamweaver.
- Copy the same metatag from your homepage so all pages have consistent metatags.

Step 4: Test and Finalize

- Check that all navigation links work correctly between pages.
- Verify that your images display properly.
- Test your contact form validation.
- Review your design for neatness and readability.
- Complete the checklist below.

Checklist

| Task | Completed (✓) |
|--|---------------|
| Meta tags added to all pages | |
| Pages tested for proper meta info | |
| All links, images, and CSS functioning | |
| Contact form tested | |
